

싱가폴 유일 100% 참숯 사용

Only obba uses 100% charcoal in Singapore

Only
Obba

Obba BBQ was born from a simple passion for authentic Korean barbecue. A group of longtime friends came together, spending countless nights perfecting the traditional Korean barbecue flavors.

Crafted with Care

Every detail at Obba BBQ is meticulously crafted to offer a genuine experience. From carefully selected cuts of meat to house-made marinades, we use traditional grilling techniques to ensure the perfect balance of flavor and tenderness.

A Community Hub

Obba BBQ is more than just a restaurant; it's a community hub. We aim to create a place where people can gather, share stories, and enjoy delicious food together.

세계4대 진미 이베리코 흑돼지

The world's four greatest delicacies
IBERICO BLACK PORK

Pigs that grow in clean grasslands on the Iberico Peninsula in Spain are soft, healthy, and reliable to eat as they feed on wild dorchis, olives, rape flowers, and herbs.

Meet Iberico, which chefs praise as a popular ingredient, with cheers from famous restaurant foodies in Europe and around the world.

Check Point.1

스페인 천혜의 자연조건을 가진 청정지역에서
야생도토리를 먹고 자라 생긴 품미

**Flavour created by eating wild acorns
in clean area with natural condition in Spain**

Iberico black pork grows eating wild acorns, so the ingredients of the acorns create Iberico's unique marbling and a flavour that goes beyond ordinary pork.

Check Point.2

걸어다니는 올리브 나무
올레인산 함유

The walking olive tree
Contains oleic acid

Iberico pigs are so full of oleic acid that they are nicknamed as "the walking olive tree". They are differentiated from the fat of ordinary pigs, and this is why you can enjoy the beef taste in Iberico.

**What is
Oleic acid?**

It is one of the unsaturated fatty acids that lowers bad cholesterol and protects good cholesterol. Especially, the taste of beef is considered good because it contains oleic acid.
